EDUCATION

UIET MDU, Rohtak   July 2016 - July 2020
Btech in Computer Science   Percentage: 72%

STRENGTHS

Technologies   Java, HTML, CSS , JavaScript, React, NodeJS, Express , MongoDB, Angular, SpringBoot, Git, MySQL

Skills   Problem Solving, Debugging Abilities, Data Structure and Algorithms, Web Development.

EXPERIENCE

Nagarro   Oct 2020 - Nov 2023
Engineer   *JavaScript Simplifier,SQL*

- Spearheaded contributions to Simplifier, a cutting-edge Cloud Platform for application development.
- Managed Jira tickets with meticulous attention to detail, ensuring seamless project execution.
- Developed groundbreaking features, including QR code scanning for webcams and a drag-and-drop ticket management system.
- Architected intricate XML structures for a large-scale application dedicated to machine metadata management.
- Led fast-application development initiatives, optimizing data management processes.
- Resolved Jira issues by replicating and diagnosing root causes, collaborating with the team for effective solutions.
- Led R&D efforts, integrating Twilio, Google Maps, and OCR for advanced functionalities.

PROJECTS

Flavor Fiesta
React, NodeJS, MongoDB, ExpressJS, Cloudinary, Redux and Socket.IO

- Conceptualized and developed a dynamic fast-food ordering web app featuring user registration, login with JWT token authentication, and real-time order tracking using Socket.IO
- Implemented an intuitive admin interface for efficient product and order management, showcasing adeptness in full-stack development.

Explorer
React, NodeJS, MongoDB, ExpressJS, Cloudinary,ContextAPI

- Orchestrated the creation of a captivating social-media web app, enabling users to post, like, and comment on content.
- Innovatively integrated a real-time weather information display, enhancing the overall user experience and showcasing proficiency in front-end and back-end technologies.

QuizAdda
Angular, SpringBoot,MySQL

- Architected a user-friendly quiz web app with features such as category-based quizzes, user signup/login, and result display.
- Empowered administrators with the ability to add new categories, quizzes, and questions, demonstrating expertise in system architecture and database management.
